

## FOR SALE

**CCM GP450 Adventure S (low suspension high seat model). Only one year old, 16 plate with a years warranty remaining. 7000 miles.**

All the Adventure S extras - adjustable screen, bash guard, cush drive, soft luggage set/frame, front accessory frame, lifting strap, etc. Numerous further extras include spot lights, heated grips, high power generator, manual preload upgrade, Acerbis hand guards, chain guard, recently changed rear tyre; and was returned to factory for fitting of Power Commander V (£500+) which seriously smooths out fuelling. Pictured with a Triumph tail pack that seemed to fit nicely, I could also let that go.

For sale only because continuing back problems and limited free time are not going to allow me to utilise bike as desired/intended.

**A fair price for this highly specified British built machine is £7,400 ono**
